

The Company with a HEART!

Dolling's Appliance and Refrigeration, Inc., founded in 1980, continues to believe in its cornerstone values of the past; excellent customer service and satisfaction, as well as fair prices. Sam Dolling, the owner, makes sure that when you speak with a customer representative in the office and then the service technician in your home, the company earns your trust. Throughout the years, it is the trust and word of mouth of customers that has built the company. Regardless of whether your major appliance is under warranty, we will service it with skill and experience.

Dolling's Appliance and Refrigeration's slogan is "The Company with Heart", It is the philosophy that guides Dollings daily. That's the Dolling's Difference!

Dolling's Appliance and Refrigeration firmly believes that it is in the best interest of customers to be informed and educated before scheduling a service call with a company. "Free Estimate with Repair" is misleading. In most cases, customers will be charged for the first call through increased labor costs. Be careful.
